Colegio San Agustin–Bacolod
Graduated October 2009

CAREER CHRONICLE

SPECTOR & CO.
Senior Software Engineer | Dec 2023 – May 2026
• Developed and maintained web application features and backend APIs using PHP and the Slim Framework.
• Worked on front-end modernization involving Vue.js and Nuxt.js.
• Integrated external services and supported data-driven e-commerce workflows.
• Investigated and resolved issues across front-end and backend components.

SEARIX
Full-Stack Web Developer | Mar 2019 – Dec 2023
• Built event applications including online scavenger hunts, bingo, photobooth, and RSVP systems.
• Developed applications using CodeIgniter and React.js, alongside WordPress promotional websites.
• Automated RSVP communications with scheduled jobs, VIP-personalized content, and templates for regular guests.
• Implemented retry handling for failed emails and sending failover across multiple servers.
• Provided technical support during live events and troubleshot time-sensitive issues.

ALTERNATIVEMEDIA
Front-End Web Developer | Feb 2018 – Dec 2018
• Built and maintained WordPress website pages and dynamic forms.
• Supported front-end updates and SEO improvements.

TOPLEFTDESIGN (WEBCERT)
Full-Stack Web Developer / Technical Support | Jan 2014 – Dec 2017
• Maintained a custom CodeIgniter CMS and supported existing application workflows.
• Built CSV export functionality and investigated technical issues.

CALLOUTSOLUTION INC.
Junior Web Developer | Jan 2012 – Sep 2013
• Maintained a Magento 1 website and a Joomla-based shipment-tracking system.

SELECTED PROJECTS & SPECIAL REPORTS

RSVP Workflow Automation — Automated guest communications using scheduled jobs, personalized VIP content, templates, retry handling, and email-sending failover.

Shipping API Integration — Integrated UPS and FedEx rate services and

supported currency conversion using cached exchange-rate data.

WebCert Cost Management System — Worked on a custom CodeIgniter application for project cost management and data exports.

Hotel Website & CMS — Developing a hotel website CMS for editing landing-page banners and section content, and managing dynamic pages.

Hotel & Restaurant POS and Management System — Developing a PHP 8.1, CodeIgniter 3, and MySQL system for hotel reservations, guest check-in/check-out, room management, restaurant orders, payment tracking, and consolidated guest billing.

EDU-21 Magento 2 Freelance Project — Freelance Magento 2 e-commerce website development.
